Directions

Taco Bell Ground Beef Preparation:

Prepare the seasoning blend by adding all of the spices to a small bowl and stir well. Set aside.

Crumble the ground beef into a large skillet (preferably nonstick) and brown, stirring well.

Cook over medium high for about 9 to 10 minutes, or until the ground beef has been cooked through. Drain fat from meat.

Place the pan back on the heat, add the seasoning blend, and add 3/4 cup of water, turn the heat down to low, and allow the ground beef to simmer while you prepare the remaining ingredients.

Taco Bell Nacho Fries Seasoning Preparation:

If you have a spice grinder or a mini food processor, process spices to grind them more finely, if not, skip this step. Store spice blend in a salt shaker or another shaker. You will have some left over, you can use this for tacos, or another batch of fries.

Follow the oven or air fryer direction of cooking the fries that are on the package.

When the fries have finished cooking sprinkle them liberally with the Nacho Fries seasoning blend.

Taco Bell Nacho Cheese Preparation:

Combine all ingredients in a small pot, heat on low until the cheese melts, stir to combine.
